PROFESSIONAL SUMMARY

I am a passionate and driven Full Stack Developer currently pursuing a **B.Tech in Computer Science (3rd year)**. I specialize in **C++ Java for Data Structures and Algorithms (DSA)**, and I am proficient in **Python and C** for building efficient and scalable solutions.

With hands-on experience in **front-end and back-end development**, I am skilled in creating dynamic web applications, optimizing code performance, and solving complex programming challenges. I am constantly enhancing my skills in modern frameworks, database management, and software development practices to prepare for a successful career in the tech industry.

KEY SKILLS

- | | |
|--------------------------------------|---|
| • KEY SKILLS | • C Programming |
| • Full Stack Web Development | • Problem Solving & Debugging |
| • C++ (Data Structures & Algorithms) | • Database Management & API Integration |
| • JAVA | |
| • PYTHON | |

Career Objective:

To begin my career as a Software Engineer / Full Stack Developer, where I can apply my technical knowledge, learn from real-world challenges, and contribute to innovative projects that make a difference.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering
Dr. A.P.J. Abdul Kalam Technical University (AKTU), Dr. Ambedkar Institute of Technology for Divyangjan, kanpur

TECHNICAL SKILLS

- | | |
|---|--|
| • Currently developing projects using MERN Stack (MongoDB, Express.js, React, Node.js) | • Familiar with Python and C and java for academic and personal projects. |
| • Practicing C++ DSA for coding interviews and problem-solving. | • Financial Modeling & Data Analysis |

LANGUAGES

English - Fluent
Spanish - Intermediate

PROFESSIONAL AFFILIATION

- **Member, GeeksforGeeks Student Chapter**

- Regularly practice **Data Structures and Algorithms (DSA)** using **Java**.
- Participate in coding contests, workshops, and peer-learning sessions.
- **Member**, *LeetCode Programming Community*
 - Solving **coding problems** to improve logic-building and algorithmic thinking.
 - Focused on optimizing solutions for time and space complexity.
- **Member**, *Codeforces Competitive Programming Community*
 - Engaged in **competitive programming** challenges to strengthen problem-solving skills.
 - Learning different approaches to algorithmic problems and contest strategies.
- **Member**, *GitHub Developer Community*
 - Building and sharing **full stack development projects** using **MERN stack**.
